

Number of vehicles	How many vehicles did the Speed Indicator Device (SID) detect that month.
Average speed	The average speed of all vehicles that were detected that month.
Average number of vehicles daily	The total number of vehicles detected in a month divided by the number of operational days of the SID
Average 85 <sup>th</sup> Percentile Speed	The 85th percentile speed is the speed at or below which 85 percent of the drivers travel on a road segment, and is often used by police in their enforcement strategies
% vehicles speeding	The proportion of vehicles that are speeding, i.e. exceeding the 30mph speed limit
Cumulative Average Speed	The average speed of all vehicles that were detected in the year to that month. For example, in June this is the average speed of all vehicles in the 6 months of January to June.
